- **POS & Peripheral Diagnostics**
- **Process Improvements**
- **Cross-Functional Communication**
- **Enterprise Collaboration Tools (Zoom, Teams, MFA)**
- **Mobile Device Support & MDM Tools**
- **ServiceNow & Salesforce Ticket Management**
- **Identity & Access Management**
- **Customer Service Excellence**
- **Client Relationship Management**

PROFESSIONAL EXPERIENCE

TARGET, Brooklyn Park, MN (Remote)

2016 to 2025

Senior Specialist Client Support Center

Delivered technical support to retail, corporate, and distribution teams across multiple channels, resolving issues related to mobile hardware, POS systems, access management, and operational devices. Leveraged enterprise tools and proprietary platforms to diagnose problems, document incidents, and partner with engineering and leadership to strengthen system performance and user experience.

- Provided multi-channel assistance to reduce downtime for store and corporate users, enabling smoother daily operations across business units.
- Entered detailed case records in enterprise ticketing systems, improving incident tracking accuracy and supporting faster root-cause analysis.
- Applied expertise in internal applications to restore device functionality remotely, decreasing on-site intervention need.
- Used identity management tools to resolve access issues, enhancing system availability and improving user productivity.
- Served as mobile technology expert and collaborated with engineers to expand internal documentation, increasing quality and reliability of support resources.
- Acted as escalation lead to facilitate communication between stores and engineering teams, accelerating resolution of high-impact technical disruptions.
- Partnered with mobility engineering teams on process enhancements, contributing to more efficient workflows and stronger overall service delivery.

KELLY-MITCHELL, Brooklyn Park, MN

2015 to 2016

Client Support Center Contractor, Target

Supported Target stores and headquarters clients with mobile devices, clients personal devices, client account password issues and shipping label printers.

- Learned and maintained technical and business knowledge, supporting clients with up-to-date information.
- Demonstrated understanding of various systems and related troubleshooting procedures, resolving client issues quickly.
